APRIL 2013

**OUR
PARTNERS**

THE CID AND CITY WORKS FOR YOU

New Road Construction

Before...

For many years The Airport City Improvement District (CID) & its predecessors, recognised the need for a road link between Madrid and Montreal Roads. The CID submitted an application to The City 6 years ago and continually discussed the implementation of this project.

Not only would this offer additional access to Airport Industria 2 but also speed up evacuation in the event of an emergency.

The City started with construction during February 2013 and completed the project on 5 April 2013.

Construction in progress..

Road Traffic Markings completed 10 April 2013

The road is now open and it is pleasing to see how many motorists in fact make use of this new road, thereby decreasing the amount of traffic on Manhattan Street.

The CID would like to thank The City for their support with this Capital Project.
